Quality Assurance with Automation

Objective

Planning, developing and executing comprehensive manual and automated tests that meet acceptance criteria and business rules, ensuring the highest possible quality standards for Web Applications.

Summary of Qualifications

- Specialist in web application testings: manual, automation, API, and database testings.
- Advanced English proficiency, with three years of living and studying in Dublin, Ireland's capital.
- More than eight years of experience developing people.
- Developing and maintaining automated test scripts using Cypress, focusing on end-to-end and API testing.
- Expertise in functional, non-functional, regression, exploratory, black box testings.
- Great knowledge in test plan, test suite, test script, test scenarios, test cases and bug reports.
- Good knowledge of JavaScript, Node.js, HTML5, CSS3, Data Base SQL, Postman, Git, and GitHub.
- Good knowledge of Software Development Life Cycle SDLC.
- Strong soft skills in communication, writing, problem-solving, storytelling, flexibility, adaptability, teamwork, teaching, analytical thinking, and customer service.

Professional experience

AB Inbev: *Quality Assurance Automation* / Start : 11/2023

- Automated Testing with Cypress: Developed and maintained end-to-end and API test suites using Cypress, enhancing coverage and improving test reliability for web applications.
- Collaborative Testing Process: Worked closely with developers and QA engineers to refine automation processes in Azure DevOps, aligning testing objectives with sprint goals.
- Prepared well-organized and logical test scripts, scenarios, and cases to ensure compliance with business rules and requirements.
- Automated testing processes using Cypress, streamlining test execution and enhancing efficiency.
- Conducted database testing with DBeaver and SQL, ensuring data accuracy and consistency.
- Managed and executed tests through Azure DevOps Test Plan, covering bug reporting, evidence documentation, functional, regression, black-box testing and end-to-end testing.
- Performed API testing using Postman, ensuring the functionality and reliability of APIs.

Main Achievements:

- Invited to join the AB InBev testing continuous improvement group, a rewarding recognition of my contributions to the company's quality assurance processes.
- Took on the Product Owner role for one sprint, managing the team and ensuring a smooth workflow during the Product Owner's vacation.

Caiena Technology and Design: *Software Quality Testing Analyst* | Start: 08/2020 – End: 11/2023

- Planned and executed scripts, scenarios, and manual test cases for a web application, ensuring comprehensive test coverage.
- Automated test cases using Cypress to streamline the testing process and improve efficiency.
- Conducted functional, regression, and black-box testing to ensure software quality.
- Performed API testing using Postman and database testing with DBeaver and SQL to ensure system integrity and data accuracy.
- Prepared detailed reports with video and/or photo evidence, documenting test results for stakeholders.
- Provided system training to clients and wrote a comprehensive system manual to ensure proper usage and understanding.

Main Achievements:

- Successfully implemented test management and metrics tracking, improving visibility and agility for developers and decision-making processes.
- Delivered system training to team members at the Government of the State of Paraíba, resulting in high satisfaction and faster progress in completing system deliveries.

Languages

- **ADVANCED ENGLISH C1** BY [LIFFEY COLLEGE](#)

My English proficiency was developed during an exchange program I undertook to improve my language skills and broaden my cultural horizons. I ventured alone to Europe, where I lived and studied for three wonderful, chilly years.

- **INTERMEDIATE SPANISH:** Limited working proficiency | Read well | Write well | Speak limited
- **PORTUGUESE:** NATIVE

Certifications

PROFESSIONAL SCRUM MASTER PSM I BY [SCRUM.ORG](#) | **LIFETIME CERTIFICATION: NO ANNUAL RENEWAL FEE REQUIRED**

The Professional Scrum Master™ I (PSM I) certification validates my knowledge of the Scrum framework, the Scrum Master accountabilities and how to apply Scrum. PSM I is recognized by the industry as a certification that demonstrates a fundamental level of Scrum mastery. As a PSM I certification holder, I have proven that I understand Scrum as described in the Scrum Guide and how to apply Scrum in Scrum Teams.
